

Nullshift: the software studio behind your agency

Bespoke websites and business systems, built in weeks, owned by the client, run by us.

- **UK software studio, clients across sport, wellness, dance and professional services**
- **Most builds live in 2-4 weeks; larger systems in 6-10**
- **Clients own their code, database and accounts (repo, Supabase, Stripe, domain)**
- **A monthly plan keeps every system hosted, maintained and supported**
- **Live client systems: The Dance Exclusive · NewFuture Therapy · Suffolk Tennis LTA**

The problem: your clients are asking for software

- **"Can you build us a booking system / client portal / CRM / members' area?"**
- **You do not have a dev team, and hiring one for occasional projects does not add up**
- **Outsourcing to a freelancer is a gamble on quality, timescales and who maintains it afterwards**
- **Saying no sends the client (and the budget) to someone else — often someone who then wants the marketing work too**

Two ways to work with us

	REFERRAL PARTNER	WHITE-LABEL PARTNER
Who the client buys from	Nullshift	You
Who sells, builds and runs it	Nullshift, under our brand	Nullshift, invisible, under your brand
What you earn	10% of the build fee	Buy at 25% off list, sell at your price
Share of the monthly plan	None	Your margin on every month
Minimum volume	None	None
Exclusivity	Non-exclusive	Non-exclusive
Acceptance	Every client subject to acceptance review	Every client subject to acceptance review

Referral partner: the numbers

You introduce the client. We do the rest. You earn 10% of the build fee.

Worked example — a booking, payments and automated-messaging build:

Build fee (list, from the guided estimator)	£6,000
Your referral fee (10%)	£600
Paid	pro-rata as each 50 / 25 / 25 milestone clears: £300, £150, £150 — each within 14 days
Your effort	one introduction, one handover call

- **No share of the monthly plan; no ongoing obligations**
- **The client remains yours for everything you already do for them**
- **Non-exclusive — refer to anyone else you like**

White-label partner: the numbers

You sell it under your brand. You buy from us at 25% off list and keep the difference.

Worked example — the same £6,000 build on the Pro plan:

	LIST	YOU PAY (25% OFF)	YOU SELL AT	YOUR MARGIN
Build fee	£6,000	£4,500	£6,000 (list)	£1,500
Build fee, priced above list	£6,000	£4,500	£7,500	£3,000
Pro plan, per month	£249	£187	£249 (list)	£62 / month
Pro plan, priced above list	£249	£187	£299	£112 / month

- Nullshift is invisible to the end client
- You set the retail price; we never contact your client about money
- We run hosting, support, maintenance and the monthly plan through your brand where needed

What we build

All quoted through our guided estimator; all subject to acceptance review.

- **Bespoke websites and marketing sites**
- **Booking and scheduling systems**
- **Client and customer portals**
- **CRMs and lead capture**
- **Dashboards and reporting**
- **Automation and automated messaging**
- **AI assistants and agents, built to the client's own rules**
- **E-commerce and payments**
- **Course, membership and subscription platforms**
- **Data migration and third-party integrations (accounting, calendar, email, payments)**

How a project runs

1. Estimate — you (or we) put the client's size and feature list into the guided estimator;

it returns a build guide price with a range and the monthly plan options. Quote valid 30 days.

1. Acceptance review — every client and every piece of work is reviewed before we commit.

2. Build — fixed price, milestone billing (50% on commencement, 25% at the agreed build

milestone, 25% before production handover). Most builds live in 2–4 weeks.

1. Launch — testing, go-live, training and handover notes. Client owns the code and accounts.

2. Monthly plan — Core, Pro or Max: hosting, maintenance, monitoring, support. New features

are quoted separately as fixed-price projects.

Proof: three client systems

The Dance Exclusive — dance school, Essex. Parent portal, staff portal and admin on their own Supabase and Stripe. 139 active parents in 30 days, 235 bookings, 582 class sessions. On a monthly plan since September 2026.

NewFuture Therapy — counselling practice, Wakefield. Brand, site, articles engine, resources library, members' courses, encrypted enquiries and an AI companion built to the therapists' own 17-section behavioural spec. Nine weeks from brief to production. Live since June 2026.

Suffolk Tennis LTA — county player pathway. Moved off a hosted prototype onto the LTA's own stack: parent hub, coach app, QR ticketing, Stripe payments. 1,340 sessions scheduled across 9 venues. Live since August 2026.

All three: their repo, their database, DPA signed. Full stories at nullshift.co.uk/client-stories.

Who does what

	NULLSHIFT HANDLES	YOU HANDLE
Scoping and estimate	Guided estimator, acceptance review, fixed-price quote	Gathering the client's goals and feature wishlist
Build	Design, engineering, testing, launch, handover	Client sign-off at milestones (white-label)
Hosting and infrastructure	Hosting, database, domain/DNS, SSL, backups, monitoring	Nothing
Support and maintenance	Support queue, fixes, maintenance, security updates	First-line triage if you want it (white-label)
Monthly plan	Running it, reporting to you or the client	Billing your client (white-label)
Relationship	Client contact (referral) · invisible (white-label)	The relationship, the retail price, the invoice (white-label)
Data protection	DPA with the client or with you; UK GDPR processes	Your own DPA with your client (white-label)

Terms in one slide

- **Referral: 10% of the build fee, paid pro-rata as each 50 / 25 / 25 milestone clears, within 14 days of each. No share of monthly. Non-exclusive.**
- **White-label: 25% off list on builds and monthly plans (rounded up to the pound). List = the Core / Pro / Max plan prices (from £149 / £249 / £399 a month) and the guided-estimator build fee. You set retail. Builds invoiced to you on the same milestones; plans monthly in advance. Non-exclusive. No minimum volume.**
- **Delivery, hosting, support, maintenance and the monthly plan are run by Nullshift.**
- **Acceptance: every client and every piece of work is subject to acceptance review.**
- **Ending the relationship: 30 days' notice, either side. Live client systems are never switched off.**
- **Ownership: the end client owns their code, database and accounts.**
- **Scope: international partners welcome; prices in GBP, exclusive of VAT.**

Getting started

- 1. Apply at nullshift.co.uk/partners (two minutes)**
- 2. Book a 15-minute call at nullshift.co.uk/book/partner**
- 3. Bring one client — real or hypothetical — and we will run it through the estimator on the call**
- 4. Choose referral or white-label; sign the partner agreement**
- 5. First project goes through acceptance review and into build**
