

• BRAND GUIDELINES

// NULLSHIFT — WEB DEVELOPMENT & BRAND CREATION

This document is the single source of truth for Nullshift's visual identity. It defines the typography, colour palette, logo usage, and design principles that keep every touchpoint consistent, recognisable, and intentional.

// 01 — TYPOGRAPHY

TYPE SYSTEM

DISPLAY / HEADINGS

Inter

600 (semibold) — max weight `var(--font-sans)`

All headings — sentence case, weight 600, -0.03em tracking, 1.04 line-height. Never weight 900.

BODY / UI

Inter

400 / 500 / 600 `var(--font-sans)`

Paragraphs, labels, nav, descriptions. 0.9375rem base, -0.005em tracking, 1.55 line-height.

MONO

JetBrains Mono

400 / 500 / 600 `var(--font-mono)`

Code, admin labels, reference IDs, system markers. Never used on public-facing buttons.

// 02 — COLOUR PALETTE

COLOUR

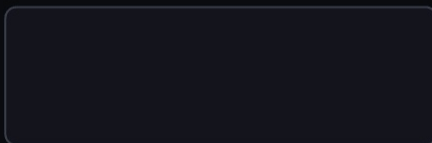

BACKGROUND

#0A0B0F

`var(--bg)`

Page canvas — cool near-black. Nothing sits below this.

SURFACE

#14151C

`var(--surface)`

Cards, panels, inputs, nav bar.

ELEVATED

#1E2029

`var(--elevated)`

Modals, dropdowns, active tab fill.

FOREGROUND

#F2F4F8

`var(--fg)`

Primary text — off-white, not pure white.

MUTED

#9AA0AE

`var(--muted)`

Secondary / supporting text.

FAINT

#5C6170

`var(--faint)`

Placeholders, captions, helper text.

PRIMARY

#10b981

`var(--primary)`

Emerald — CTAs, focus rings, active states, brand dot.

PRIMARY FG

#0A0B0F

`var(--primaryFg)`

Text/icon colour on emerald backgrounds.

BORDER

#2A2D38

`var(--border)`

Hairline dividers, default card outlines.

BORDER STRONG

#3A3D4A

`var(--borderStr)`

Inputs, secondary buttons, strong dividers.

DANGER

#FF3A5C

`var(--danger)`

Errors, destructive actions — never decorative.

WARNING

#F5D547

`var(--warning)`

Warnings, soft alerts — never decorative.

// 03 — LOGO & MARK

THE MARK

PRIMARY LOCKUP

 NULLSHIFT

MARK

APP ICON

DO

- Maintain clear space of at least the mark's width
- Minimum lockup width: 120px · mark: 18px
- Use on the near-black background
- Keep the light / emerald pill relationship intact

DON'T

- ✗ Don't rotate, stretch or distort the mark
- ✗ Don't change the colour scheme or recolour the pills
- ✗ Don't add effects except the approved hero-glow
- ✗ Don't place on busy or light backgrounds
- ✗ Don't recreate or re-letter the wordmark

// 04 — SIGNATURE GRAPHICS

VISUAL LANGUAGE

GYROSCOPE

Gimbal rings, glass band, mirror core — craft, precision, motion.

NEURAL SPHERE

Icosphere node network in a glass cage — systems, intelligence, connection.

// 05 — DESIGN PRINCIPLES

CORE PRINCIPLES

01

Dark architectural system

Three surface tiers: background → surface → elevated.

Components live at their tier. No arbitrary depth or shadow stacking — only modals get drop shadows.

02

One brand colour, used precisely

Emerald #10b981 is reserved for actions: CTAs, focus rings, active states, the brand dot. Signal colours (danger, warning, success) are for status only — never as decoration.

03

Typography as structure

Inter 600 for all headings — sentence case, $-0.03em$ tracking, 1.04 line-height. Hairline 1px borders define geometry. Layout communicates hierarchy before colour does.
